

A Virtual Tour of the “Greenest Building in the World”

Phipps Conservatory’s Center for Sustainable Landscapes

Denmarsh Photography, Inc.

The Center for Sustainable Landscapes generates all of its own energy and treats all storm and sanitary water captured on-site. It is the first building to meet five of the highest green certifications.

Tri-State Creation Care will be hosting a virtual Zoom tour on

Thursday, Feb. 25, 2021, 6:30 pm (CST)

Free and all are welcome

Built in 1893 at the height of Pittsburgh’s industrial revolution, Phipps Conservatory started as a sanctuary where smog-weary citizens could find respite from the region’s notorious steel mills and smoke stacks. Today, as one of America’s greenest public gardens, Phipps has become a leader in sustainable architecture and operations. Our tour guide for the event is **Adam Haas**, Phipps’ interpretive program manager.

This online tour is open to all interested individuals, but **registration is required, by Mon., Feb. 22.** To register, send an email to tristate.creation.care@gmail.com. If you have any questions, either email those to the same address or phone Caroline Nellis at 812-424-6832.

A Tri-State Creation Care Event

Tri-State Creation Care is a coalition of people of faith dedicated to encouraging the care of our earth and its resources.

For more information, find us on Facebook at [tristateinterfaithcreationcare](https://www.facebook.com/tristateinterfaithcreationcare) or email at tristate.creation.care@gmail.com

We will love, protect, and care for creation
